Notes**Online delivery format**

Utilizing online delivery, we will have a combination of synchronous delivery during the regularly scheduled class time, asynchronous videos, and written instruction. Students will require a computer, stable Internet connection, webcam and microphone.

Students will need to be able to access the software for this class. There will be two options for this – students will have the opportunity to download the software to their personal computer provided it is a Windows based environment. Software access will also be provided through the Okanagan College VM network. Students utilizing this option will be reliant on their Internet connection to complete the work.

Students will be provided a CaseWare data file at the start of the term.
