Learning Outcomes

Upon completion of this course, students will be able to

<ul style="list-style-type: none">describe the purpose and role of reward and compensation systems.identify problems caused by an ineffective compensation system.discover how structural and strategic variables are related to compensation.identify a compensation strategy that best fits a given organization.design effective performance pay plans and benefit systems.use market data to calibrate a compensation structure.design effective processes for compensation system implementation & evaluation.

Course Objectives

This course will cover the following:

<p>This course integrates an online simulation as a major team project. The simulation provides students with an opportunity to enrich their understanding of the compensation process by applying course concepts to a simulated organization. Using the simulation, students will design a compensation system from beginning (assessing organizational strategy) to end (describing the implementation and evaluation of the system).</p> <p>See the Course Schedule for weekly details regarding content and deliverables.</p>
